## Bottlesnakes Bring Their Musical Talents to Chautauqua

The Bottlesnakes are an original roots band that groove on traditional blues and folk melodies. Featuring Ethan Leinwand on barrelhouse piano, Nick Pence on slide guitar, and Del Robles on drums, The Bottlesnakes started out specializing in 20s and 30s blues from St. Louis and beyond. They would then grow to perform original music, which is a unique combination of styles and influences that has been thoroughly crafted over the years. A

true folk product of the current times and the St. Louis environment with a sound that is timeless and internationally accessible. **The Bottlesnakes will perform in the Donnelly Pavilion, Friday, August 26 at 7 pm.**

### Last Movie of the Season: *To Kill a Mockingbird*

Come see Gregory Peck's Academy Award-winning performance as Atticus Finch and Robert Duvall's film debut as Boo Radley in ***To Kill a Mockingbird*, Saturday, August 27, at 8 pm in the Auditorium!** You all probably know the story line but if not, *Cliffnotes* sums it up for us: Told over three years in Alabama during the Depression through the eyes of Scout Finch (6-9 years old) you learn about her father Atticus Finch, an attorney who strives to prove the innocence of a black man unjustly accused of rape; and about Boo Radly, a mysterious neighbor who saves Scout and her brother Jem from being killed. It's a classic, must see movie!

## Bert Hampton Presents "Six Myths of Cryptocurrency" at Last 10:45 Lecture

Our very own **Bert Hampton** will cover the "Six Great Myths of Cryptocurrency" on **Monday, August 29 at 10:45 am in Town Hall**. The six myths are that it: is bad for the environment, is used primarily for illicit activity, is insecure, has no real value, is just a fad, and is not money and therefore cannot replace fiat money. The talk will include a deep dive into crypto as currency vs. merely serving as the fuel for all the new blockchain technologies sweeping the world. For those who stay till the end, the actual portfolios of a couple of the widest recognized crypto gurus will be exposed.

This summer, credit goes to **John Colbert** for bringing so many of our speakers to the 10:45 Lecture podium. Love the coffee? Me, too! Thanks again and again to **Bert Hampton**. As always, we thank and appreciate our ever-faithful A-V helpers, **Lori and Scott Adams**. And we're grateful for **Jerry Young**, who has been a hands-on facilitator week after week.

Most importantly, thank all of you who attend, absorb, ask probing questions and return whenever you can. For future lectures, what would pique your interest? Who do you know with an interesting job or hobby? REMEMBER, suggestions for topics and/or speakers are always welcome!! Send them to [seiber15@yahoo.com](mailto:seiber15@yahoo.com)
